Dear Mr. Astrid:

I was recently referred by Professor Vaughn Nystrom to your job listing for a web designer and I believe this would be a great start to my newfound expertise in the tech industry.

Specifically, I am currently attending Queensborough Community College (QCC) through an early college program at Business Technology Early College High School, where I have had great success publishing technically advanced websites with effective designs and engaging content under Professor Nystrom's guidance.

I would be very grateful if you were to consider my application to apply for a web designer. Please feel free to contact me through the methods below and schedule a call or meeting at your convenience to discuss my background and application.
